Get started

To get started with Reflecto:
1) Sign up
2) Connect your MT5 account
3) Follow strategies or Share your own

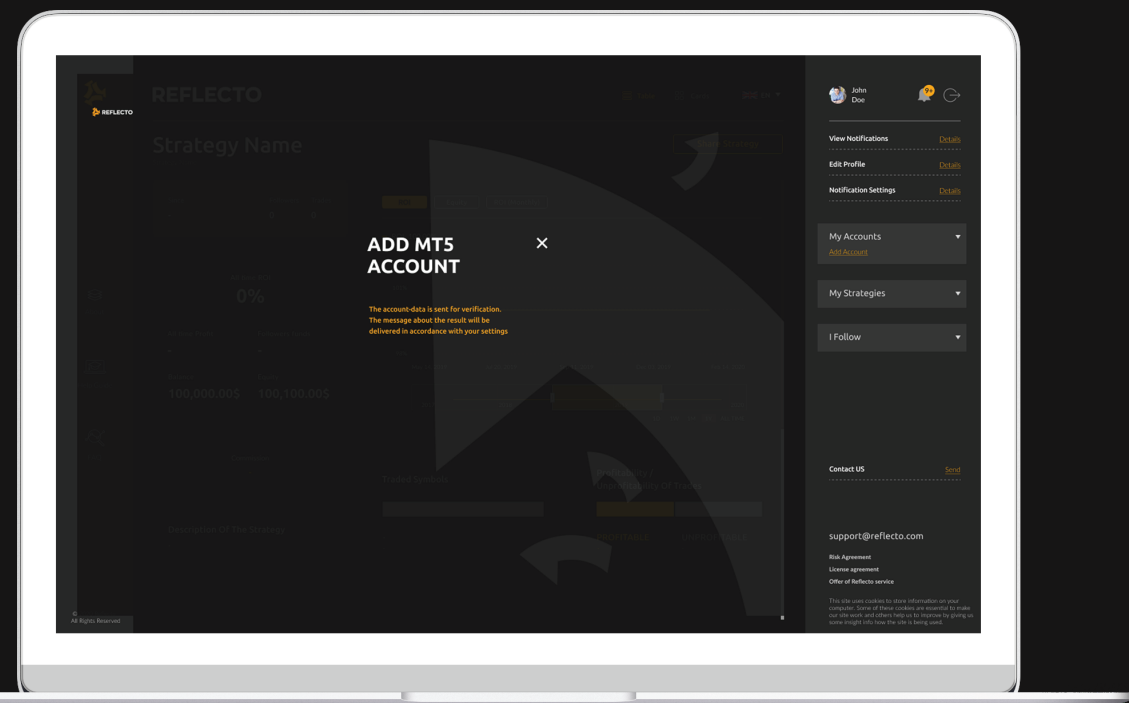

1.1 Sign up

Create a Reflecto account
Fill in the registration form and verify your email – that's it! Your account is almost ready.

1.2 Connect your MT5 account to Reflecto

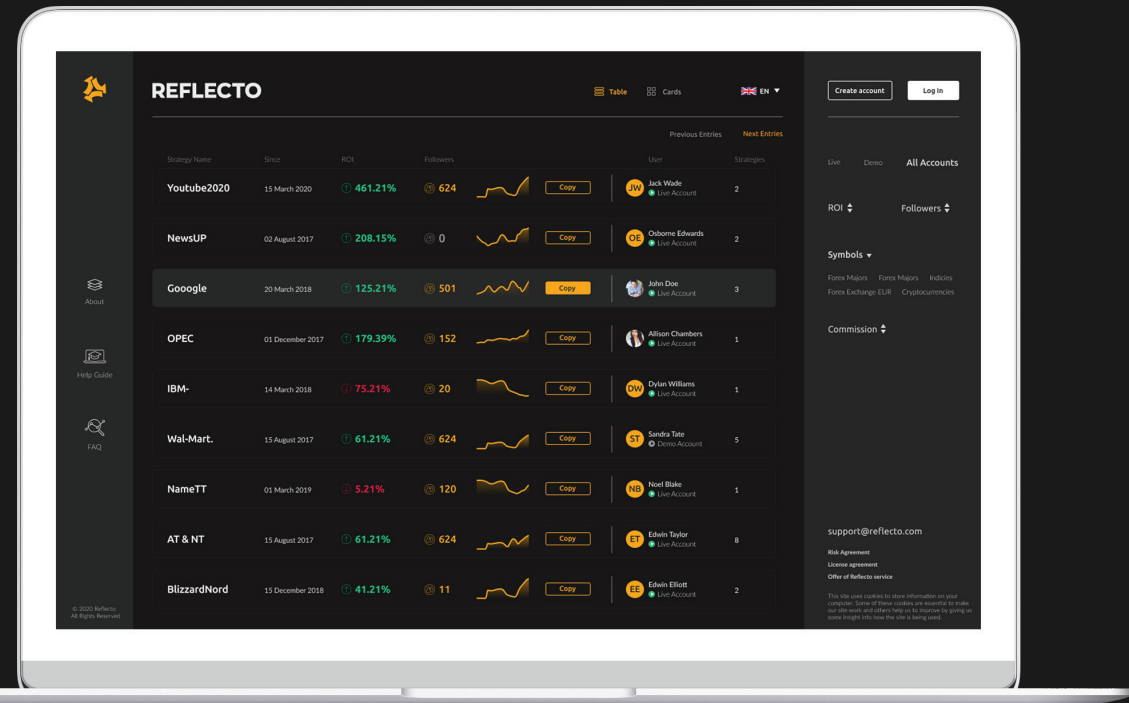

To work with Reflecto, connect your trading account. To connect an account, please enter your trading's account login and password.

1.3

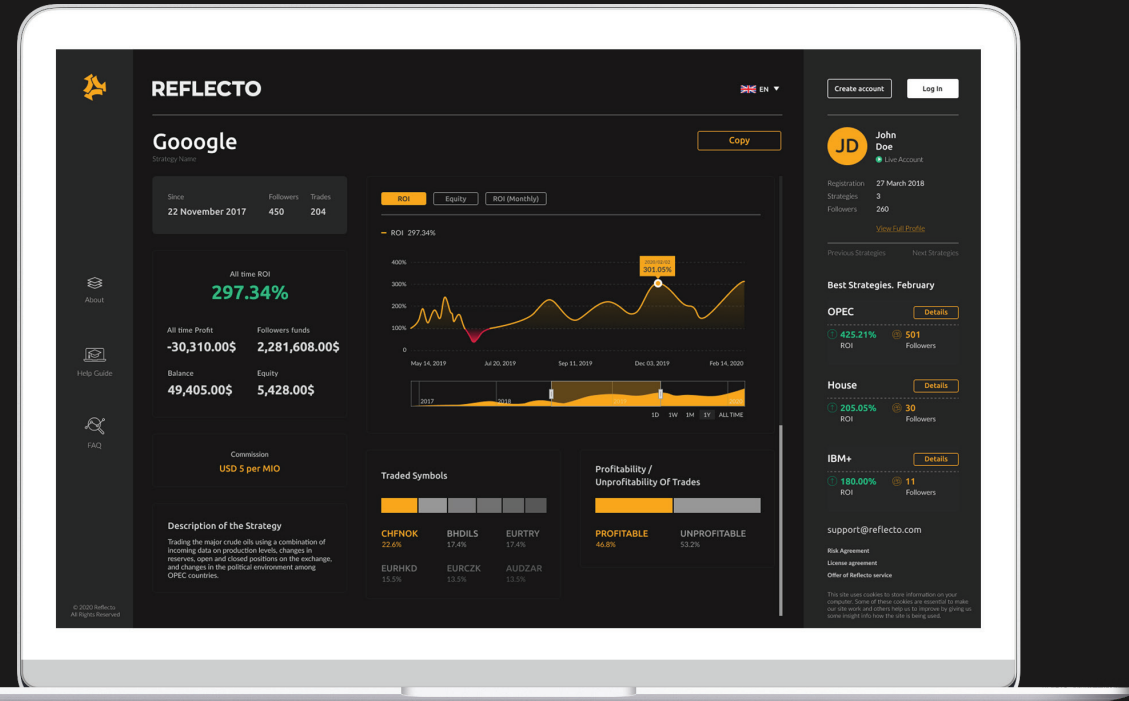

Now, you can either follow the Strategy of the experienced traders and copy their trades or share your Strategy.

To Follow to a Strategy:

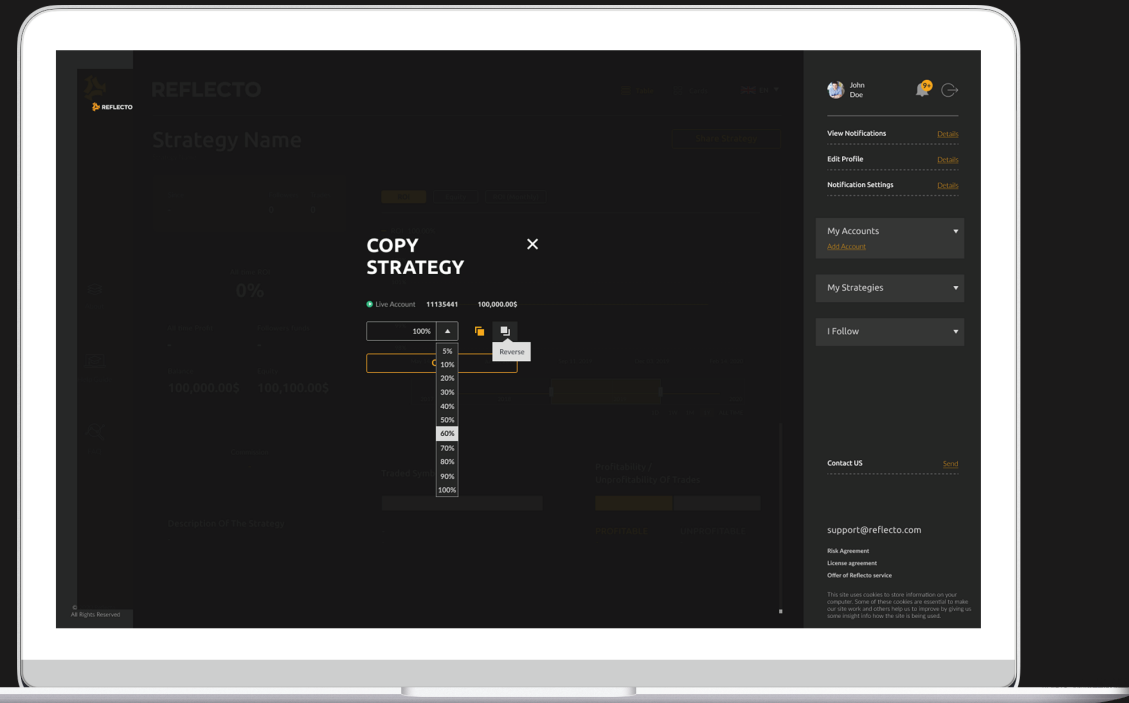

2.1 Pick up the Strategy

Pick up the Strategy you want to follow (each strategy has performance indicators such as ROI, profitability etc.)

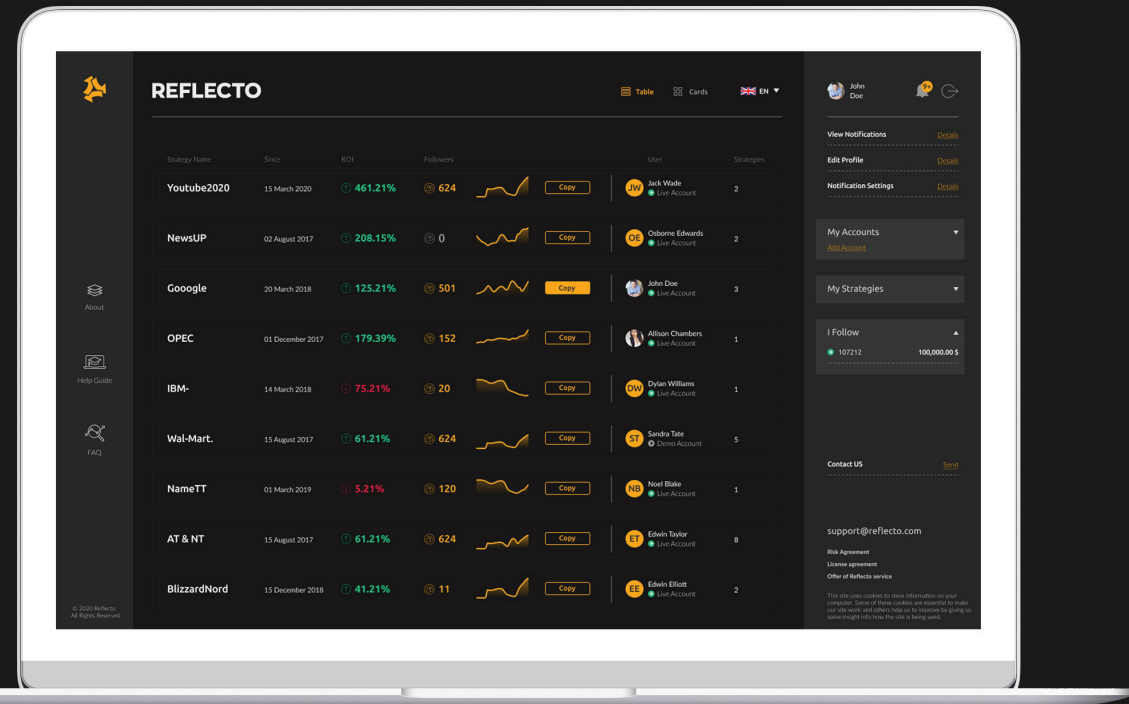

2.2 Pick up an account

If you have several trading accounts, choose one you would like to connect to a specific Strategy

2.3 Set up the following parameters

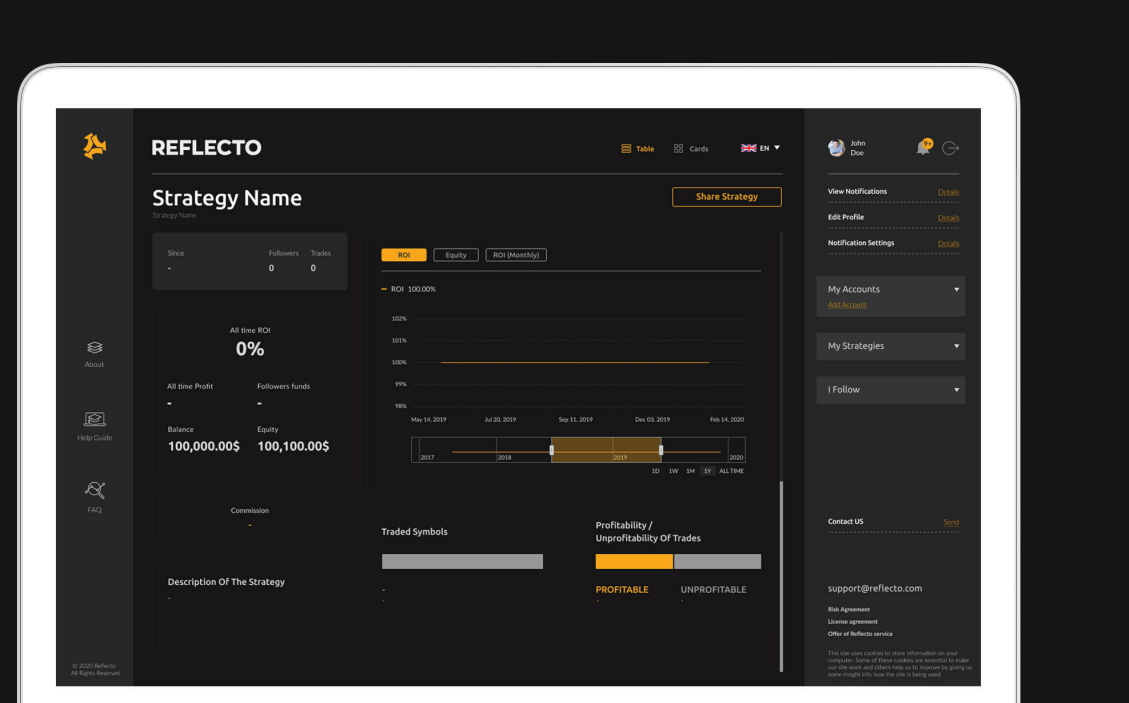

Now pick up the volume coefficient you'd like to work with.

2.4 Follow the Strategy

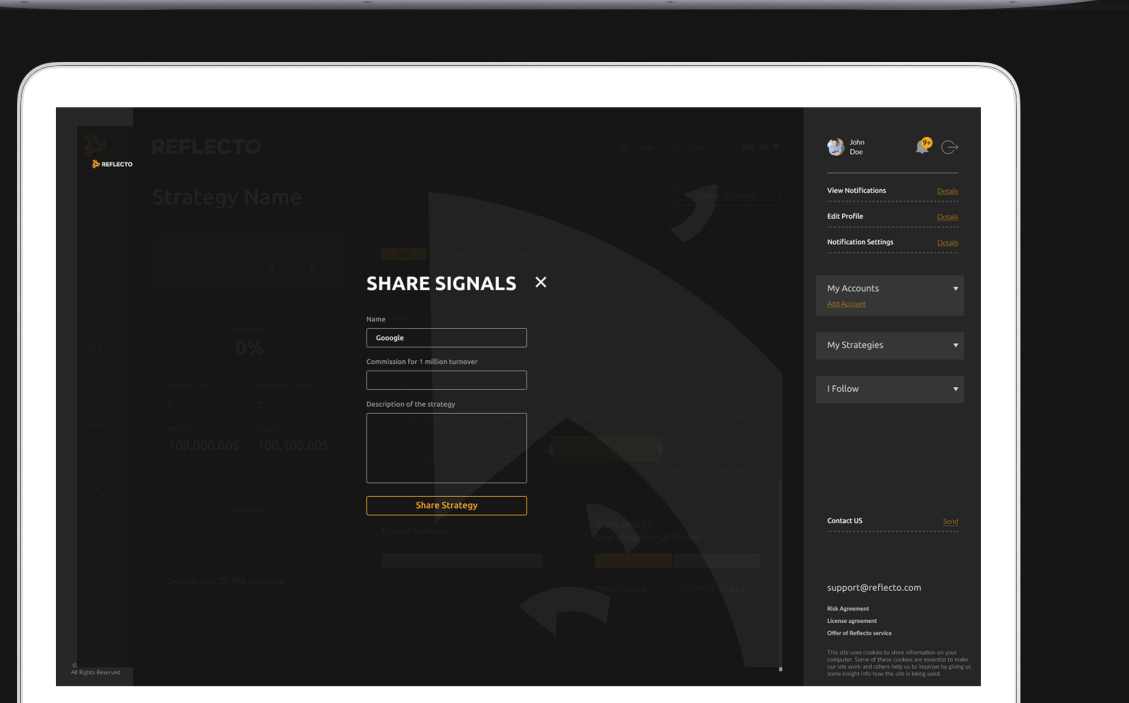

(to copy the trades in the same of the opposite direction of the Provider's trades – it's up to you)

To share your strategy with other Users:

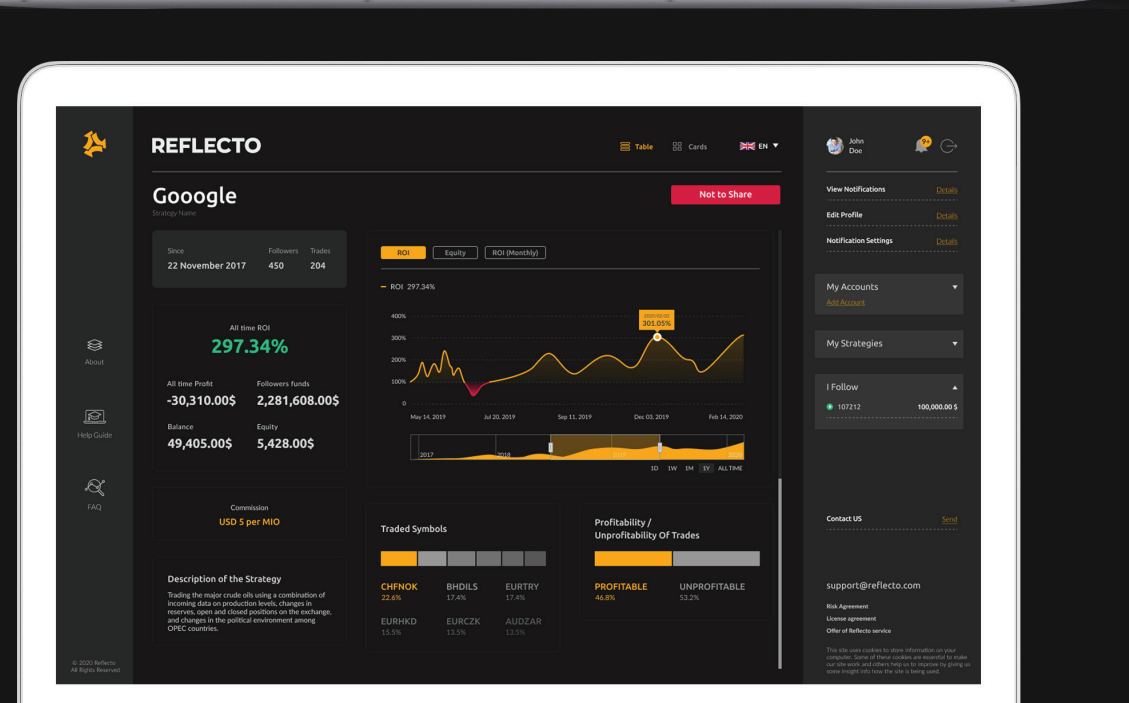

3.1 Pick up a trading account with a strategy to share

Select "Share Strategy" button to share your trading strategy with others.

3.2 Set up your strategy

Fill out the strategy's parameters: name and the commission rate.

3.3 Get profits

Now trade and get the money for sharing your trading experience! You can directly influence your earnings: get more followers, adjust rates – that's it!
